After entering follow the path to the left, jump on the block and knock on the door. This is where the Wizard is located. He will give you the Star Charm. If before exiting this round you choose to fight the Blue Knight again, you will receive more money bags and a large Heart container.

### Round Eight

When you enter the cave with brick walls (like level two) you will meet some coin takers. As you climb the ledges to get out, knock on the wall again (like level two) and you will find Medusa.

### Round Nine

Once you are in the cave and you drop down the well, you will come to a blue Fireball. Stand on the ledge in the center of the screen and knock. You will then be faced with King Demon. You will receive the Sword of Legend in this round.

### Round Ten

### Round Twelve

How to find the Dragon: Go to the right and drop down the first well. A fork in the well will appear, go to the right. When you land on the ground, go left and watch for the Fireballs. Go down the first well you come to. Take the first exit to the right. This exit brings you to another well, take it. Exit the first right. You will then be in a room with blue Goblins, follow the hallway to a moving brick. Jump up onto the moving bricks which will take you up five levels. Do not take any exits while you are on the stairs. When you come to the top, go left. The screen will keep scrolling to the left. Continue on until you see an elevator. Take it to the top, where you will find a blue Snake. Kill the Snake and go left. At the end you will see a Rophah (green shooting pot) on top of a well entrance. Proceed down the well. Take the first exit after entering the well. You will see another well on the right. Drop down, exit and go to the bottom. Go off the screen to the right. The next scene has Crabs. Some Crabs contain Hearts, some are empty. Keep going to the right and drop down the well at the end. Go all the way to the bottom. Then, go left. At the far left you will find a Red Knight and a red Snake at the end of the hallway. The Dragon's Lair is located on the next screen, just knock on the red door. The best way to kill the Dragon, is to aim for his head. If you hit him anywhere else it won't count!
